Experiance

IBCCI (27th April,2023 -30th June, 2024)

Trainee Front- End Developer

- Implemented and Maintained Front-End Web Application by utilizing modern web technologies such as **React JS** and best practices for user experience and accessibility.
- Assisted in the development and maintenance of Front-End Web Application.
- Provide support to senior Front-End Developer, resulting a stronger, more efficient Tech Team.
- Worked with Cross- Functional Teams to develop and execute on-time and on-budget projects and initiatives by effectively communicating project timelines, progress, and objectives using tools such as Zoom and Webex

Projects

Portfolio

- It is **React Based Project** that demonstrate my proficiency in building scalable, efficient and user friendly interfaces. This project contains a collection of my personal projects and portfolio pieces, showcasing my skills and experience in React.
- **Technology use: React, JSX, CSS 3, Bootstrap 5, Javacript, NextJs .**
- **Link: https://github.com/kahkasha17/Portfolio.git**

FOODIE Bandhu

- It is a web project based on an online restaurant management system. It follows **MVC design pattern.** It contains lots of features but the main feature which it makes it different from other management system is that it provides a user friendly interface, 24*7 customer support, **alone eater special feature ,**and so on.
- **Technology use: Spring Orm, Spring MVC, Html5, Jsp, Css3, Javascript, Bootstrap, MySql .**
- **Link: https://github.com/kahkasha17/Foodie-Bandhu.git**

VIRTUAL KAKSHA

- It is a web project based on online education system. It follows **Factory design pattern**. It contains lots of features but the main feature which it makes it different from other education system is that it provides a **digital library, live classes, and assignments option** in one platform.
- **Technology use: Jsp, Servlet, Html5, Css3, Javascript, Bootstrap, MySql .**
- **Link: https://github.com/kahkasha17/Virtual-Kaksha.git**
